

MAGIC MESH PREP™

Combined Liquid Screen Degreaser, Wetting Agent, and Antistatic Treatment; Ready-to-Use

Magic Mesh Prep is a ready-to-use liquid conveniently combining the properties of screen degreaser, wetting agent, and antistatic treatment. **Magic Mesh Prep** improves the flow characteristics of liquids, facilitating more uniform coating of direct emulsions and the easier transfer of ink during printing, thereby improving printed image quality. The improved wetting of mesh also promotes the adhesion of indirect and CDF® Direct-Film (capillary system film), and dramatically improves the durability of all stencil systems, for longer printing runs. The antistatic properties of **Magic Mesh Prep** reduce the whiskering and feathering of ink when printing under low humidity conditions.

PRODUCT FEATURES

Three products in one

Ready-to-use

Occupationally; environmentally friendly

Shelf life

BENEFITS

Screen degreaser

Wetting agent: facilitates uniform coating and easier ink transfer during printing; promotes adhesion of film; improves run length of all stencil systems

Antistatic treatment: reduces ink whiskering and feathering under low humidity conditions

No mixing; convenient; saves time

Highest HMIS rating for health, flammability, and reactivity

VOC-free; biodegradable

1 year storage in original container at 68° F. (20° C.)

FORMATS

Magic Mesh Prep is available in quart (946 ml.), U.S. gallon (3.78 lt.), 5 U.S. gallon (18.92 lt.) and 50 U.S. gallon (189.25 lt.) units. Quart units are packaged 12 per carton; U.S. gallon units are packaged 4 per carton; 5 and 50 U.S. gallon units are packaged individually.
